Description

Perfectly positioned between Las Marinas Beach and the heart of Dénia, Residencial Aquamaris offers a lifestyle that is becoming increasingly rare: the tranquillity of an established residential community combined with the convenience of walking almost everywhere. The marina, the beach, supermarkets, pharmacies and the vibrant town centre are all just a few minutes away.

Built in 2006, the development is renowned not only for its excellent location but also for its beautifully maintained Mediterranean gardens and outstanding communal facilities, including a large swimming pool, paddle court, children's playground and concierge service, creating a secure and welcoming environment throughout the year.

The property for sale is a spacious first-floor apartment that has had just one owner since it was built and has been impeccably maintained. Its generous proportions, practical layout and quality finishes create the feeling of a permanent residence rather than a typical holiday apartment, making it an excellent choice both as a year-round home and as a second residence on the Costa Blanca.

One of the property's most distinctive features is its THERMOFLOC thermal and acoustic insulation system, providing excellent energy efficiency and a comfortable indoor environment throughout the year.
